

Labor's trusted partner in better health

We know unions represent the backbone of America's workers; keeping them healthy is our purpose.

Traditional healthcare in the U.S. is broken, and we offer a better way.

Marathon Health serves **80+ unions** who represent more than **340,000** members and their families. We are one of the largest **value-based, advanced primary care providers** in the U.S., with more than **2.5M** eligible patients.¹

 Marathon provides **direct primary care**, through in-person health centers and 24/7 virtual access.

 By combining **advanced primary care** with **value-driven population health management** we deliver better outcomes and meaningful savings.

How we lower your total cost of care

 **Predictable per-member per-month flat fee** membership model.

 **Data driven** patient engagement strategies.

 **Low or no copays** and fees for members.

 **Performance guarantees** that drive financial alignment.

680+
health centers

50
states with with virtual care available, and **41** states with physical health centers

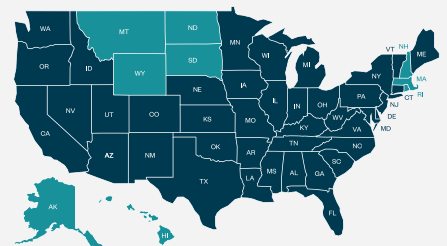

1,050
providers employed by Marathon Health

97%
