

eMed Empathetic AI™
Population Health platform
**LETS THE MIRACLE OF
GLP-1s/GIPs BE ENJOYED BY
YOUR MEMBERS**

The program begins with an **AT-HOME PRESCRIBED AND PROCTORED** eMed GLP-1/GIP Screening Kit™

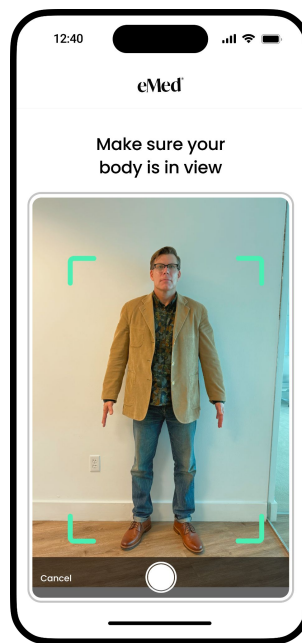

**Instant access to live care.
No appointments ever.**

eMed Empathetic AI™ validates participant's ID and medical history combined with **AI TOOLS TO ENABLE THE WORLDS EASIEST BIOMETRICS CAPTURE**

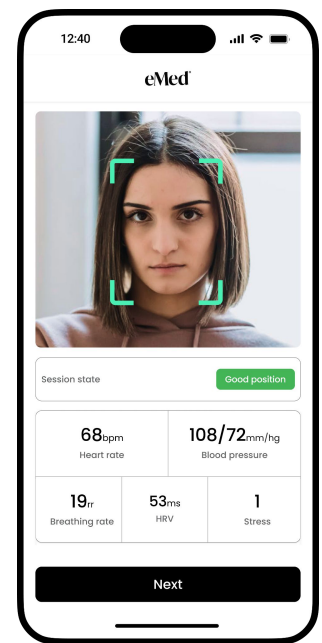

Weight

Advanced **computer vision technology** conducts **real-time analysis** and verification of weight as the participant stands on a scale

Height

Comprehensive **image analysis** processes a **full-body photograph** to accurately determine the participant's height

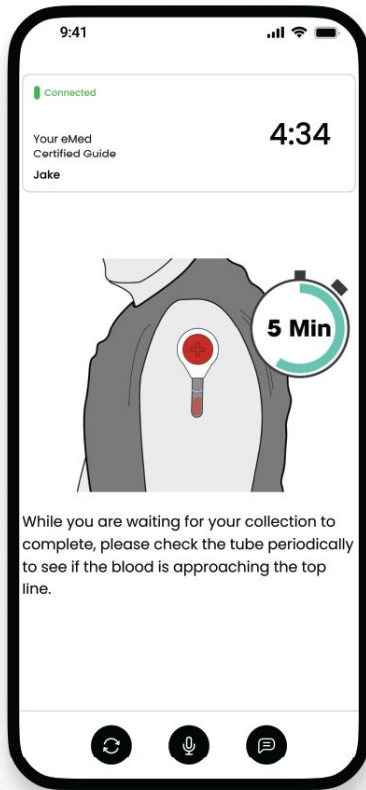

Blood Pressure

Utilizing advanced computer vision, signal processing, and machine learning algorithms, **PPG signals are extracted and analyzed** to deliver blood pressure readings*

*Pending FDA approval for medical use

At-home blood collection

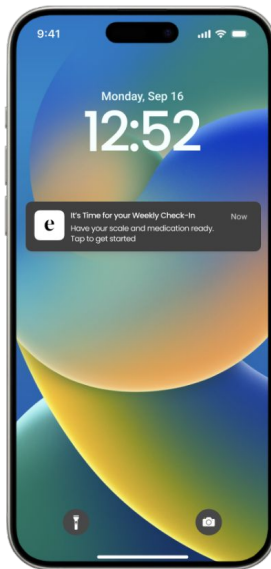

- Virtual proctor **guides and certifies at-home no needle blood collection**
- Automated overnight **pick up**

eMed SCREENS PARTICIPANTS for:

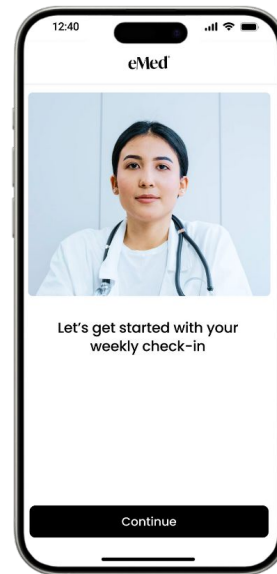

- Type 2 diabetes
- Hepatitis
- Hypothyroidism/Hyperthyroidism
- Cardiovascular risk factors
- Chronic kidney disease
